

KENWOOD KMX50GYW KMIX STAND MIXER 500W 5.0L GLASS BOWL YELLOW

The Summer Yellow kMix kitchen machine KMX50GYW with glass bowl

The Kenwood Summer Yellow kMix KMX50GYW kitchen machine with stylish glass bowl is the perfect blend of colourful, retro styling and classic Kenwood reliability and performance. The ergonomically designed controls and easy-fit attachment outlets are all conveniently placed at the front of the machine.

Perfect Results

With a 5 litre polished stainless steel bowl with large handle, 500W motor, planetary mixing action and a range of clever attachments to choose from, the kMix kitchen machine comfortably handles large quantities of ingredients and the stiffest of dough.

The unique fold function allows the bowl to revolve using a 2.5 turns revolution mixing action to perfectly incorporate ingredients without losing air, which is important in baking mixtures.

Design for life

Available in a colour to suit every kitchen, the advanced electronic speed control ensures that you carefully and smoothly build up to the desired speed without spillage anything, and for added safety the kMix kitchen machine automatically stops if the head is lifted.

All kMix kitchen machines use high quality, tested components and attachments to enable you to create great food, every day, every time.
